1. In the Brasov zone an unnamed Romanian firm is reported to be constructing IAR 80 type fighter planes for the Soviet Air Force.
2. The two oil pipe lines which carry oil from the Floegti fields to the Constanta seaport and to the Danube river port of Giurgiu are reported no longer in operation. The oil is now transported direct to Bessarabia. The oil zones are under strict surveillance by the Russians.
3. The fortification construction project along the Carpathian western line and ending along the Danube is proceeding rapidly. The work consists principally of casement construction, laying of mine fields and building anti-tank traps. The zone to the south of the Danube delta is also being fortified.

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1973 from the Director of Central Intelligence to the Archivist of the United States.
